the ignorance and consequent help-lessness of the poor, whom the rich keep in that state by the most studied methods. The learned retainers of methods. The learned retainers of more.

The average workingman is taught to look upon a court as a holy temple and upon a judge as an exalted and infallible being. This ignorant reverence for the power that enslaves him, the bludgeon that strikes him down, is fatal to the workingman.

The moment the working class open their eyes to that power it vanishes.

Let it not be imagined by the grandees of capital, of whom these judges are the puppers, that the working class is to forever pay the pathetic tribute of its dumb lack of understanding to capitalist courts by their ignorant reverence for these correct ignorant reverence for these corrupt institutions.

The capitalist courts are proving

the instruments of their own over-throw. They have gone to such ex-treme and desperate lengths in their treme and desperate lengths in their abject subservience to corporations and their brutal denial of all justice to the working class, that they have forfeited the confidence and excited the resentment of all decent people.

The most wholesome contempt of the working class for the capitalist courts will soon bring them to their senses. No more stuff and nonsense about reverence for any judicial house

about reverence for any judicial house of prostitution!

> THE country is certainly awakening to the outrages on justice committed by the federal judiciary. Within the past week no less than a dozen papers com-ing to the APPEAL have contained edi-torials addressed against these abuses. These editorials were not comments on the Warren case, but represented the the Warren case, but represented the initiative of the editors themselves. In some cases the protest covered as much as two columns. The press is awake, and if it does not sleep again there will be such a change in the manner of administering law as will amount to a revolution, and that within a comparatively few months.

## Tragedy of an Arm

A factory girl in New Jersey had her arm forn from her body The trial court in which she brought suit awarded her \$17,500. The corporation appealed, the supreme court reversed the ower court, and turned the frightfully mutilated factory girl out into he street without a cent.

Now upon what ground do you suppose the higher (?) court re-

Now upon what ground do you suppose the tight (?) court reversed that just verdict? You could never guess in all eternity. Here it is as given in the Philadelphia Exening Telegraph of January 3d:

A photograph had been introduced at the trial. This photograph was the picture of the defendant in her confirmation dress and the learned judges decided that it was irrelevant; being frelevant, it should not have been admitted, and being admitted, it nullified all the proceedings of the court bearing upon the negligence and responsibility of the company.

And this is law, capitalist law, as administered by a capitalist court

protect the rich and rob the poor, and we say in all calmness and with perfect deliberation, to hell with such law and to hell with such a We confess ourselves in unmitigated contempt of degenerate judges who render such utterly damnable decisions.

We take our place squarely by the side of the poor factory girl who ad her arm torn from her body through the criminal negligence of the corporation, and we denounce and defy the infamous capitalist court of New Jersey that robbed her.

An ordinary pickpocket or hold-up man, plying his wretched voca tion in the struggle for existence, is a minister of mercy compared to such a vampire court. We have never heard of a thief so low or a footpad so degenerate that he would pick the pocket of a mutilated helpless child. The supreme court of New Jersey, the dispenser of apitalist justice, has descended to that unfathomable depth and come mitted that monstrous crime.

The excuse need not be attempted that this is "technically the law" and that the judges, regardless of their sense of justice, had to decide according to the law. That confidence game has been worked out. Law or no law, technicality or no technicality, the one infallible criterion is that the rich are always right and the poor are always robbed; the corporations are always law-abiding and the working class are the only criminals

## Lincoln Day for Warren and the Workers BY EUGENE V. DEBS

tent with their lot.

Events are shaping rapidly for the national Warren Protest Demonstration on February 12th Lincoln's birthday. This will be the opening day of a campaign that will continue without intermission until the day of Warren's release. The corrupt courts and the despotic power behind them have overplayed their hand in putting Warren in jail. The outrage is so flagrant and so utterly without justification that the people are up in arms against it.

The thousands of letters that are pouring in from every city, town, and cross-roads are all expresive of the same contempt for the corrupt corporation courts and the same loyalty to Warren and the APPEAL. In response to a flood of inquiries we outlined a program of action in our last issue, to which we add the following:

Where there are labor unions a list of them should be made, together with their time of meeting, and they should all be visited in their order and the case of Warren clearly stated to them and action on their part solicited. It is their fight. It is purely on account of the working class that Warren is under jail sentence and the unions ought to stand by the man who has fought their fight. Where a general dem-

onstration is in progress all these unions should have an active part.

Several cities have already reported. The Socialists and the labor unions are working together enthusiastically for a rousing demonstration. Every city in America should be heard from in this nation-wide revolt.

If there is the kind of action there should be there is not a roof in the biggest city that will cover the people who will turn our to join in the revolt. It is in the air. The people have reached that point where they will submit no longer. They are ready for action. All they require is the inspiration of wise a divided patronage, with two roads to be kept up, it is absurd to claim that the steam roads could not rested. Had Drummond been in Warren's roads to be kept up, it is absurd to roads to be kept up, it is absurd to claim that the steam roads could not read a the traffic. The people who will turn our to join in the revolt. It is in the air. The people have reached that point when th

est Demonstrations, and all should be invited. Let but the right start be made and the wide spread feeling of revolt against the corporation courts

will find spontaneous expression. Half-a-dozen men and women in dead earnest can organize a successful demonstration anywhere. If there are not so many, two or three will do, and even a single-one with the fire in his blood can work wonders.

The APPEAL in this fight is striking capitalism at its most vulnerable point. A judge who once sat on the supreme bench of one of the state courts writes:

Your guns are now trained where they will do effective work. For a long time there has been a suppressed feeling against the courts and this agitation of the APPEAL will bring it to a head. Every shot you fire at the courts counts. They are rotten and the people know it. Stick to your guns and before Warren gets out of jail there will be an uprising of the people."

Time up if you are in the fight! Don't wait for somebody else. Turn yourself loose and see what you can do. If there is anything in you that has the ring of revolt and the gleam of self-respect, Now is the time to show it.

It is getting out Earl Grey, secre-tary of foreign affairs in England, has ordered the consul general at Yucatan to investigate the charges of slavery in

## Che Power of the Appeal

"I know that Roosevelt was bitter in his feelings against the APPEAL TO REASON and its managers because of REASON and its managers because of their lurid comments on the Moyer and Haywood case. I suspect though I do not know, that he ordered Bonaparte to bring this suit."

A big New York newspaper sent to its Washington correspondent for an "inside story" on the Warren case, and the above quotation was all the "inside" he could put in it. That is big enough, however. Big enough for us. The date of this letter is Dec. 30, 1910. Roosevelt had called the

30, 1910. Roosevelt had called the so, 1910. Roosevert had called the kidnaped miners "undesirable citizens" and he wanted the courts to sustain him in his cowardly comments. The little old Appan got after Teddy and his indicial bears and made them howl. The only thing I want to say about it is this: Our comrades may have no doubt that it was the bitterness of the "square deal" man that started the wheels of the judiciary revolving against Warren. In the last few months I have heard quite a number of our tine strung comrades make this kind of comment on the APPEAL: "Ye has its special work to do," a of damnation by faint praise—a kind of notice of motion that there were other publications that had other work to do and by inference better

## The Big Things Doing.

Big things are doing these days. Much bigger than the press is reporting. You have to read between the lines to see the significant things, and sometimes into the lines.

First of the big things is the con quest of Honduras. Honduras is a republic bordering on the canal. A revolution is in progress there, just as it is in Mexico. But there, you will see by dispatches tucked in out of the way places, American capital-ists have financed a gunboat, which was bought of the United States government, and sent it to act, manne Americans who have been doing st effective work in behalf of the revolutionists. They don't do that in Mexico-yet. There is a reason. The reason is that Morgan has loans in Honduras, which he picked up for almost nothing, and he wants Uncle Sam to make them good. And Uncle Sam is doing it. You will hear much more of this later on.

Second of the big things doing is

panic. When the Carnegie Trust company failed in New York for \$11,000,000 a dozen banks were in imminent danger of going down with it, but Morgan came in to the breach vent it is the precipitation of a war. In the last election the democratic spellbinders howled with unusual ve-hemence against the trusts, the robber tariff, Cannonism, letc. Upon this bogus issue, sad to say, the demo-crats carried the country and now have, or will have at the next session of congress, a majority in the house of representatives. ## ODDITIES OF CIVILIZED MAN.

Isn't it odd that civilized man will vote for a system that makes him pay for the use of land that God has given free to all men?

Isn't it odd that civilized man will have his own government print money and give it to banks, and then pay the bankers to get the use of his own money, instead of having his govern-ment issue money direct without interest?

Isn't it odd that civilized man will loan money and credit to railroad corporations and then pay the cor-porations for the use of the iron high ways they have furnished the money to build?

Isn't it odd that civilized man will strike against his masters and yet vote for them to control the police powers to break their own heads? Isn't it odd that civilized man will vote to office men who make laws to give themselves big salaries, while taking small pay or no pay for their

own work!

Isn't it odd that civilized man will vote to protect the owners of indus-try from foreign competition, so they can extort from the home consumers, and not for men who would limit the price at which protected industries

live in a hovel while seeing men sources of the working class movement to brild, and think he has liberty?

What is a civilized man, anyway?

## Lesson of the Maine.

Louis Kopelin reports that the naval officers who are raising the battleship Maine in Havana harbor have evidence that the vessel was blown up from the inside. While capitalist papers say but little about it, for obvious reasons, enough has appeared in their news columns to fully confirm what Comrade Kopelin says.

It was the blowing up of the Maine that precipitated the Spanish-American war of 1897. Spain disclaimed all responsibility for it, and at the time asked that the vessel be raised in order to determine if it was not blown up from within. But Uncle Sam refused to consider the matter, and capitalist papers inflamed the people with the cry or "Remember the Maine" until war came. the only genuine democrats there are in the world.

TRAINED ADMINISTRATORS.

The Kausas City Star proposes that the principle involved in the commission form of city government be apton form of city government be apton to suppress the information now, or to stop further work.

It all represents infamy unbelievable. Whether the Maine was blown up by accident, or by capitalist design in order to precipitate the war and conq the guilt and conspiracy is apparent. The blowing up of the Maine was made excuse for the war of conquest; not an officer was found on the vessel when a large number of people that being let out and by the general wing up of business. A panic is what has been accomplished in other places and go blundering along doing this the only thing that can preful to come almost any day. Practiff it is the precipitation of a war, of course, brings loans and a cerish condition, which for a time duces artificial stimulation, though terrible aftermath necessarily mes. and meaningless cry and the capitalists benefited at their expense.

The significant thing is that just at present the same capitalist interests that

manipulated the Spanish-American, war to their advantage are using this gov-ernment in another war of conquest At this moment, a vessel, financed by Morgan and bought from the American government, is conquering Honduras, and this at a time when America affects peace with that country, Even worse

than that is whispered. Will the American people learn the lesson of the Maine, or will they again permit themselves to be made the tool of designing capitalists seeking profit through conquest? We shall see.

### HOW THEY ANSWER.

The story is told that a Tammany democrat in New York, seeing that Socialist meetings were all packed and overflowing, notwithstanding an admission fee, while the old party meetings went begging in spite of their brass bands and free whiskey some investigation he concluded that the reason Socialist meetings were so well attended, so interesting and so well attended, so interesting and enthusiastic was because they were thrown open to questions by the audi-ence and the speakers gladly an-swered such questions. He thereupon ers and answer questions asked by the audience. At the first democratic meeting which followed questions were asked for according to the new ust finished. ## UNITED PROTEST EDITION

Appeal to Reason, Girard, Kansas.

The rapid spread of revolt among The rapid spread of revolt among the masses against the usurpation and tyramy of the courts, especially the irresponsible federal courts, is the most remarkable phenomenon of this time. On February 12, Lincoln's birthday, rousing protest meetings will be held all over the country. To make these meetings serve the patriotic purposes intended, the people who attend them should be impressed with their significance and portent and to this end we venture to suggest to our Socialist and labor contemporaries that they all unite in issuing a record-breaking protest edition for that day. It will be an occasion for each of these papers to spread an enormous special edition among the people and arouse them to revolt against the powers that are throttling their liberties. By united and energetic co-operation of the live and progressive papers pubthe live and progressive papers pub-lished in the interest of the work lished in the interest of the work-ing class it will be possible to spread at least five million copies of this protest edition among the American people. There is a great opportu-nity here for all to unite in striking a powerful blow for the ling class of the United States.

We are verging on a crisis. There s a tremendous struggle just ahead; its shadow is already upon us.

This struggle is between the peo ple and the throned monarchs of corruption; between the poor, the oppressed, the despised, the robbed and insulted, and the corrupt ruling dynasty that is throttling the people's liberties and using its stupendous thousands of whom are starving, despairing and dying before our eyes, in everlasting bondage.

In this struggle, this crisis, we stand for the working class, for freedom, for the truth, for justice. We have nothing to fear. We are fighting the battles of the Almighty's own children and the gates of hell cannot prevail against us.

We want men, and we thank what ever gods there be that we have them; and when the ordeal comes they will

They made it a felong to have the book in one's possession.

Today the poor can read but they who are deceiving their poorer neighbors have bought up all the publications and keep them ignorant of their rights and the facts of current conditions. Lexington by, Jan 11.—Resolutions so sensational as to startle even the delegates who voted for them were passed by the Kentucky Federation of Labor in its annual convention here today. The declarations attack the courts of the country, both state and national, saying:

"They have usurped the power to declare laws unroastirational and daily become more arrogant in their mininterpretation of justice and more unscrupulous in the manipulation of their own decrees.

The apprense court of the United States was attacked because it refused a writ of habeas corpus for Moyer, Haywood and Pertinore, aithough "they were proved in nevent of the murder of Governor Steungerica".

### ECONOMIC UNITY.

The grandest shibboleth ever uttered is the revolutionary cry of Marx to the workers of the world. "Unite," is the watchword he gave to them. This single word embraces the supreme necessity of the working class. Had Marx been the prophet, the priest and the king of the toiling millions, he could have given them no more.

When Marx said "Unite," he meant enginery to crush all protest and keep both economic and political unity. He cant make all laws for the poor only the multitude, the children of God, understood perfectly that neither was he thinks of the rich. I dont blam

### A New Record

Here we are with the biggest report ever chalked up by the Army.

Take a good look at the first page figures, comrades; they're the most significant thing in America. While capitalism is holding its nose, investigating purchased senatorships, crumbling trust companies, etc., etc., the Army is sawing wood at the old circulation bucksaw, making Socialists by the thousand a day. It's a good record. It shows plainer than words the difference between a decaying system and one that is live, vigorous and growing.

and growing.
No man or woman who reads the APPEAT can fail to note this differ-ence. None who read the APPEAT and THINK but in self defense will cut loose from capitalist misrule. Forty weeks of the APPEAL will come as near making people think as anything short of escape from sudden death.

of escape from sudden death.

It isn't enough that we've established a new record. None of the Army will be satisfied with 480,906 subs. That leaves us within 19,000 of the half million mark. Now it isn't so much a question of reaching 500,000 as how QUICKLY we reach it. Then take this to heart:

THE ENTIRE ARMY'S SPEED WILL BE REGULATED BY YOUR ACTIVITY!

ACTIVITY!
Tell your friend Bill about the APPEAL'S new record. Then point APPEAL'S new record. Then point out capitalism's record. Show him that Socialism is rising to take the place of declining capitalism. Maybe Bill will grin as he gives you his sub. But before his forty weeks has elapsed the fire will strike. Then you'll see Bill cut a streak through town with a red card in one hand and a sub blank in the other. When you've landed one "Bill" start on another, and so on. In the meantime the little old Appear will tap 500,000 and swing out into deeper and broad-
