It is a record of which we are rather a larger paid-in-advance circulation than any weekly periodical published in the United States. It has a larger circulation than any political newspa per in the world. It has a circulation equal to the combined circulation of all Socialist publications in the United States. This is said without boasting. but with a certain amount of pride, which I feel certain you will admit is pardonable.

You will recall that last week we quoted from a conversation between Congressman Phil Campbell and a certain republican Kansas editor. To refresh your memory I reprint what Mr. Campbell said, which is as fol-

When I secured the pardon for Warren, the APPEAL office contained the maddest set of fellows in Kansas. They were boiling mad, because up to the time of the pardon, money was pouring into the APPEAL office by the barrel. The pardon soon stopped the money and that was what made them bot.

By referring to the above table of gressman Campbell and his associates that Strange that among the millions kept informed on what was happening of workers in America no one ever caught the idea sufficiently to lay by of his wages enough to become a millionexpected climax to the first prosecution of the APPEAL.

It was expected when the APPEAL editor was first indicted in May, 1907, that he would walk up to the judicial throne, plead guilty and take his punishment as most men do who are dragged into the federal courts. Such a policy might have saved us much money and a good deal of anxiety, but it would not have preserved our self-respect-nor our job!

It was fight or run up the white flag.

The APPEAL Army stood loyally back of the paper and the list climbed rapidly during the latter half of 1907, after the unjust indictment had been productive property of the country. Then returned. The circulation maintained its own during 1908. In May, 1909.

Then the APPEAL Army got busy and broke all subscription records by days of July, 1909. As a matter of fact in the two weeks of that hot, dusty July, following the Pollock outrage, our friends gathered up and sent in 54,777 subscriptions? A record, by the way, never equaled by any weekly periodical in the whole history of newspaperdom!

Listen! According to the present plans of the politicians there is to be no APPEAL!

You read in the daily dispatches last week that Success Magazine was forced to suspend because it was unable to meet the expense involved in proud. It shows that the APPEAL has complying with the new postal regulations-governing the "routing" of all mails in the office of publication? If a big magazine like Success, financially strong, backed by a large advertising patronage, cannot withstand Mr. Hitchcock's onslaught, what must the APPEAL's situation be with its low priced subscriptions? Other papers, mostly those of the poor, with low subscription rates, will follow Success to the P. O. D. graveyard.

But the APPEAL will not be one of them!

Nor will the APPEAL raise its subscription rate and thus destroy its usefulness!

The APPEAL will live to triumph over its political enemies!

Suppose the workers starve themselves and their families the coming year and salt everything they get away in buried boots. There are plenty of federal judges who on a salary of \$1,000 a year have managed to "lay by" \$10,000 of it, and the worker ought to do as well. Of course, the worker is at a disadvantage. He might be recalled from his job! But saving is a good idea. Let all wages be saved for a year—and every merchant in America would go broke for lack of business. ## POLITICAL POWER.

There are those who think lightly of working class political action and others

For instance, the street car employes were on strike at Schenectady, N. Y., when the recent election occurred there. They had attempted to organize and were unceremomously fired and their leaders blacklisted. That was the situation when the Socialists elected the mayor and carried the city for the work-

mayor and carried the city for the working class.

Within forty-eight hours after the election returns were made the company unconditionally surrendered, reinstating all the employes without prejudice or discrimination, granting them the right to organize, and making other concessions which before they had rejected with contempt.

What was the cause of this turnabout-face? Simply that the working class in their organized capacity, as a class, had put themselves in control of the political machinery of he municipality, and the erstwhile defiant corporation was at once brought to its knees and promptly made peace on satisfactory terms with their former employes.

We offer this incident in evidence of the fact that there is efficiency in political action and victory in political power.

## POOR CAPITALISTS.

The capitalist excuse for the militial is that it is to put down the "mob." and that is true, the mob being the working class.

My Dear Hitch: It is with pleasure
we learn of your efforts to squeich Socialism and particularly that pestifercialism and particularly that pestiferous sheet the APPEAL TO REASON.

Your recent ruling that all its mails ent to distributing points must be sacked separately for delivery to such points, some sixteen hundred in number, is the right and proper stuff. Good move. That'll cost 'em a lot for extra help, and say won't they have to hustle some to do that stunt every week!

But my dear Hitch, why did you stop there? Why not rule that the APPAL must deliver each sack at its proper destination? That would make "en a lot more expense and help swell the postofice surplus. To be sure such a ruling might kick up a little disturbance by newspapers not onto the racker. a ruling might kick up a little distur-bance by newspapers not onto the racker but you could have it quietly explained to such that the ruling would only be temporary (as a sort of experiment) tutil the Appear and a few "sich" could be put out of business, and then the ruling would be withdrawn, and the old way restored! The amount you'd save by the ruling would enable you to do this great feat without cutting into the postoffice surplus to any great extent. Think it over Hitch, think it over, then act. We know your ability, my dear Hitch, and marveled at it as you turned a postoffice deficit into a surplus! WHY and HOW the

The Workers Are Aroused.
At a mass meeting held in Hot Springs, Ark., two significant resolutions were adopted. The first reads: Williams, A dispatch from Indinappolis indicates that the lavestigation of the Menamara case shows that the dynamiting for which the McNamaras are now imprisoned in San Quentin was unstigated by competitors of the Nationar Erectors association:

The second resolution reads:

Wayland and Phifer are being persecuted by the United States government because of their connection with the Appeal to Reason; and whereas, we recognize that this Socialist paper is a friend of the workers, achting their battles as they present themselves, and as we see the indictment pending against our cotarades is an effort to imprison them so that the Appeal may be suppressed; therefore be it.

Free and successful competition in-evitably results in submission, destruc-tion or absorption of the competitor, therefore, it is only reasonable to conclude that competition as an industrial system is the father of co-operation as an industrial system; co-operation as an industrial system being the legitimate child of industrial competition.

Some boys report they are seiling as high as 50, 60, 70 and 80 copies each week, that they have regular customers and that it only taxes from one to two hours to make deliveries, giving them a net pront of from \$2 to \$3 for one evening's work after school.

Walter Redmond, of Grove City, Pa., writes as follows regarding his experience in selling the Coming Nations: "I am eleven years old and have had lots of trouble with my papers. I was put out or the shops for selling them while the other boys who sell capitalist papers were allowed to sell all they could, but I am getting along fine now. I started with ten papers weekly but now have regular customers for twenty-ave. I think the 3½ cent profit on each copy is a much better proposition than the old method."

It Is an Organ.

It Is an Organ.

The Affrail is a great organ.
But it is not a personal organ; its voice is that of the unexpressed millions.
The paper is only the white keyboard, and the organ extends around and above, reverberating throughout the land.
When you wouch the right notes it responds magnificently.
You catch the puffs of toll, the groans of anguish, the prayers of the oppressed, the curses of the desperare, the protests of the strong.
There are quavers and minors in it, but it is very musical. There are apparent discords, there are notes of thunder and sounds of sighs, but it is the sweetest merody ever meard.
There is something elemental about it, like the roar of the storm, the hiss of the tumbling water, the wail of the wind.

Amid the tendencess of mother love and the

wind.

Amid the tenderness of mother love and the silence of abnegation that suffers while it serves, there is the beat of hammer, the roar of told, the clanger of God's angry men demanding trings and swings over the land, swelling notes of a great organ. It is human hearts that are making the music.

man hearts that are making the music.

It shakes the very earth with its living dinpason, and the guilty tremble before it, while the dispated tingle with joy of coming deliverance.

I would rather touch these notes, and touch them aright, so that they might play the deeper music of liberty and opportunity.

Than to stand on mountain tops hearing the plaudits of the mighty. I would rather my soul should thill with that music of emancipation.

Than that I should have all the bloody spoil that the world can pile at the feet of conquerers.

SLAVERY IN KANSAS.

KANSAS was once slave territory. There were chattel slaves within the borders of the state that gave a reputation to John Brown of Osawatomic. A Kansas editor was once indicted because he dared print a criticism of chattel slavery. It is all told in a publication by the Kansas State Historical Society, Vol. 7., 1901-1902, page 220, furnished the Arpeal, by A. A. King. Caddo, Okla. To chote:

"The Missouri compromise of 1820 was intended to exclude slavery forever from all territory north of 36 degrees 20 minutes—the south line of Kansas. It was the result of the first great fight on slavery after the constitutional convention. It was abrogated by the Kansas-Nebraska bill in 1884. . . In this way, at the middle of the nineteenth century, the country approached what a titlerang was then his time. Called

I came to Norwich in March, and not a week has since passed but that we have had has since passed but that we have had from one to three communications in the press on current topics from the Socialist standpoint. Every opportunity to pass timely resolutions is taken advantage of, and the Norwich papers print our resolutions in full and sometimes feature them. Last Friday night we held the sixth of a series of propaganda meetings at Jewet City, a small town eight or nine miles from Norwich, and not a word had appeared in the Norwich or Jewet City papers about these meetings. But that was due to our own neglect. I struck town Friday evening, and was one of the speakers, wrote up the meetings for the day evening, and was one of the speakers, wrote up the meetings for the Jewet City correspondents of the Norwich papers, and the stuff went in as I wanted it. Too much stress cannot be laid upon the importance of newspaper publicity work. One of the most valuable features of Comrade Hunter's campaign for the governorship in Connecticut last year was the tyepwritten copies of his speech which were furnished newspaper representatives as soon as he arrived in a town. tives as soon as he arrived in a town. Misconceptions.

It was not long ago that the name of Socialism was anathema in this country; and today men assume to judge it who have not the remotest conception of its character. It was but a few days ago that an ex-president of the United States spoke of Emma Goldman as a follower of Debs! This gentleman wrote a history of Cromwell and he would have been equally excusable if he had declared Cromwell to be a follower of the Roman catholic church, for if there are two principles between which there is a world-wide gap it is the principles of Socialism or the co-operative commonwealth and scientific anarchy which denies that any government should exist. should exist.

# Burns Freed by a Trick

Burns has been cleared of the charge of kidnaping the McNamaras! Not found innocent, but cleared by a trick! It came about in this way: The case was taken out of the state court, and transferred to the federal court, on the ground that it involved interstate operations. When it came before the federal court, it was held that Burns could not be prosecuted in the federal court for alleged violation of a state statute. And there you are! How easy it is to juggle the rights of the worker in the court, and clear the criminal tools of capi-

man who engineered the trick which consummated the blow aimed at the working class when the "con-fession" of a capitalist plot was pulled off at Los Angeles was Federal Judge Anderson, an appointee of Roosevelt. He has merely said in effect that though an agent of the capitalist class may violate state law, and override the constitutional rights of the worker, the federal court will step in and see he is not punished. Again it has been declared by the federal court, in effect, that the kidnaping of a worker is legal.

Seeking an analysis of the law. In this outrageous violation of law and justice Burns kidnaped McNamara and the kidnaped workingman is in penite-tiary; Judge Anderson then kidnaped Burns and turned him loose. Both Anderson and Burns are criminals buther the law, but eminently respectable

When the Appeal, seeking an answer to the question, Is kidnaping a crime? offered a reward for kidnaping of former Governor Taylor of Kentucky, a republican under indictment for murder, the man who appointed Anderson to his position, the man who contributed money to Taylor's defense, and denounced the officials of the Western Federation of Miners before they were tried—Theodore Roosevelt—procured the indictment of the Appeal editor; and we were not let off without a trial. On the contrary, the Appeal editor was found guilty for merely suggesting kidnaping, whereas Burns is turned loose without trial after being indicted by an Indiana grand jury for the crime of kidnaping.

The question raised by the Appeal is still unanswered, in spite of the quibbling, and abuse of power of the federal courts, in spite of the new indictment against the Appeal editors.

This happened when Roosevelt, then president, brought action for libel against the New York World and the Indianapolis News, growing out of the Panama canal scandal, and Anderson, the federal judge at Indianapolis, threw the case out of his court and incidentally threw Roosevelt down and jumped on him with both feet.

It was then that Roosevelt said to Harry New, the Indiana member of the republican national committee, and once its chairman: "Anderson is a domned jackass and crook!"

DON'T BE FOOLS.

So far from standing for violence, it is time the masters understood that So cialism is the only force that stands between them and destruction.

If there was no vent for the feelings of the people, if they saw no hope for themselves or their children, such as Socialism offers them, there would be nothing for them to do but to "smash

This movement is not hand-made. It is not machine-made. It is living. It may be turned from one channel, but it will find another. When Jesus was ap-pealed to once on a time to silence the may be turned from one may be turned from the million another. When Jesus was pealed to once on a time to silence the clamers of the people, he replied that if they were to be silenced the very stones in the street would cry. They would have done so—speaking as they were hurled through the air at the heads of the arrogant masters.

These seventy-seven unfortunates, most of whom will go to penitentiary for life while a few will be executed must excite the profoundest pity of every human being who has the quality of mercy in his heart. It matters not what crimes they are charged with, in a great majority of cases they are simply scrap iron and rags when he has been worked out, pumped dry of his profucts of their miserable environments. The third assistant postmaster general recommends a flat increase of one cent a pound for all newspapers and periodicals. This recommendation is made with the full approval and endorsement of the express companies At the present time the express companies are carrying second-class mail at a fraction less t'ian one cent per pound. "UNLAWFUL violence" is a term coined by the Denver Republican in commenting on Comrade Haywood's recent speech. "Unlawful violence" is good—we take it that there is a "lawful violence"—and that that is the kind our capitalist enemies resort to. Why shouldn't they? The capitalists make the laws and it is therefore not a difficult matter to legalize the violence used by the capitalists against the working class. "Unlawful violence" is a term coined
