False Testimony and Coercion Being Used.

Behind steel bars, with serious charges hanging over each one of deen, and with a ghastly network of perjured, purchased testimony canning ever closer about them, seventy-four members of the I. W. W. see going on trail for their lives and liberty in the city of Seattle, Washington. Witnesses are being bribed or bullied to testify against them. "Gumshoe" artists are scouring the country, leaving no stone unturned to secure any "evidence," by any means, that will prejudice the opinions of jurymen or poison the mind of the public against them. The Lumber Trust and the labor-hating henchmen of Big Business on the Pacific coast are prepared to go to any length in order to make the coast are prepared to go to any length in order to make the season of the

mediate and united action of the awakened working classes the land. The following telegram from the Defense Committee indicates she gravity of the situation:

Chicago, III.:

Bought and paid for false testimony endangers our boys. Fifteen thousand dollars more necessary, to cover witness, stenographic and legal expenses. Send all money on hand immediately and get every collar possible at mass meetings. This case must be Waterloo of serchants and manufactures. Part DEFENSE COMMITTEE.

lumber and turpentine camps, in the fields of cane, cotton and tobacco, in the mills and mines of Dixie, are such that the workers suffer a more miserable existence than ever prevailed among the chattel slaves before the great of the provided among the chattel slaves before the great of the provided among the chattel slaves before the great of the provided among the chattel slaves before the great of the provided among the chattel slaves before the great of the provided among the chattel slaves before the great of the provided among the chattel slaves before the great of the provided among the chattel slaves before the provided among the chattel slaves of the masters of the north. In the north we find that the hardest work and the poorest pay is only portion. We are driven while on the job and the high cost of living offsets any higher pay we might receive.

The white wage worker is little, if any, better off. He is a slave the same as we are and, like us, he is regarded by the boss only as a means of making profits. The working class as a whole grows poorer and more miscrable year by year while the employing class, who do no work at all, enjoy wealth and luxury beyond the dreams of title lords and kings.

May a suppose the provided among the prov

example, in the raifroad industry there are the engineers' union, the freman's union, the conductors' union, the brakeman's union, the switchmen's union and many others on that road and in the shops and yards.

Each union acts for itself and usually has time agreements within the companies for a term of years, each agreement ending at a different time than the others. The state of the control of the control of the companies of the tother craft unions keep at work and by emaining on the job act as seabs and strike-breakers in defeating their fellow workers of the craft on strike. Thus in 1911 the men in the shops of the Harriman lines went on strike and the trainmen, who belonged to different craft unions, remained at work; the train craws took cars from and delivered cars to the strike-breakers in the shops because they were organized separately and had-separate time agreements with the companies. That strike was lost because the railroad workers were organized wrong. The I. W. W. has INPUSTRIAL UNIONISM, which means that all crafts in any industry are organized together, and act together. Had the I. W. W. been in the place of the craft tilions on the Harriman lines in 1911, all would have gone out together, not a wheel would have turned, not a train would have moved till the companies would have come to terms with the shopmen. For the I. W. W. always leaves its members free to strike when they see an opportunity to better themselves or support their fellow workers.

The foundation of the I. W. W. is INDUSTRIAL UNIONISM. ALI, workers in any division of any industry are organized into an INDUSTRIAL UNION of ALI. the workers in the ENTIRE INDUSTRIAL UNIONS in turn are organized into INDUSTRIAL ORGANIZATION OF THE INDUSTRIAL WORKENE OF SECULOR OR SECULOR

from wage slavery. "He who would be free, himself must strike the blow."

When the I. W. W. through this form of INDUSTRIAL UNIONISM has become powerful enough, it will institute an INDUSTRIAL UNIONISM has become powerful enough, it will institute an INDUSTRIAL DEMOCRACY; it will end slavery and oppression forever and in its place will be a world of the workers, by the workers and for the workers, are world where there will be no poverty and want among those who feed and clothe and house, the world; a world where the world; a world where peace and happiness shall reign and where the children of men shall live as brothers in a world-wide INDUSTRIAL DEMOGRACY.

The I. W. W. welcomes you as a member no matter in what industry you may work. The initiation fee is \$2.00, the dues are 50c a month. After you become a member you have the right of free transfer into any industry. All that is necessary to continue membership is the payment of dues regardless of where you go or what your work may be. For further information write to

Fellow Workers.—There is one question which, more than any other, presses upon the mind of the worker today, regardless whether he be of one race or another, of one color or another; the question of how he can improve his conditions, raise his wage, shorten his hours of labor and gain something more of freedom from his master—the owners of the industry wherein he labor.

To the black race who but recently, with the assistance of the white made of the northern states, brote their chains of bondage and ended chartel slavery, a prospect of further freedom, of REAL PREEDOM, should be most appealing. For it is a fact that the magro worker is no better off under the freedom he has gained than the magro worker is no better off under the freedom he has gained than the property of unital he has accaped. As chattel slaves we were help or the property of unital he has accaped. As chattel slaves we were help or the property of unital he has accaped to the latter was considerate of us and careful of our health appear, on the property of unital health of the hardest and most hazardous labor, the longest hours, at the lowest pay; we may quietly starve when out of work and the boss loses soothing by it and has no interest in us. To him the worker is but a machine for producing profits and, when you, as a laze who, sells limined to the master on the installment plan, become old, or broken in health or strength, or should you be killed while at work—the master mercly gets another wage slave on the same terms.
