STRIKE OF 700 L. A. **UPHOLSTERERS WON:** FAKERS DEFEATED

Wages Increases of 25% to 40% Gained

LOS ANGELES, June 23. - By taking the initiative into their own hands, rank and file members of the Upholsters Union won most of the demands in the strike last week. More than 700 workers were ont. All except one shop has settled for a wage increase of from 25% to 40%. Two shops have recognized the shop committees elected by the workers.

Twenty workers in one upholstery shop remain on strike for a 50% increase on piece rates or 75c

The A. F. of L. bureaucrats or ganized the workers several weeks ago by promising them to go out or strike for higher wages. Then they tried to call simply a 24-hour "holiday." But the workers went out and stayed out, carrying on the struggle until most of their demands were won.

GROCERY ORDERS CUT AGAIN IN OAKLAND, **WORKER WRITES**

Charities Pad Food List; Reduce Relief

My grocery order was 40c less this time than it was two weeks ago. That means a real cut of 54c, because milk has gone up a cent a quart and when milk goes up or down the charities add or subtract that much on the grocery orders.

When I complained about the cut they told me it wasn't a real cut because prices had gone down.

When I got home I checked over the prices on the list of things we can buy. Prices had gone down can buy. Prices had gone down from 1c to 1/4c on six articles; one GUARANTEED JOBS of them, tea (I never drink it) and another, vinegar. Prices had gone up from 1c to 2c on four articles one of them milk.

What's really happened is that they have removed some things from the list: apples, bacon, lard and a few others. The list of things we can buy looks as long as it used to, because they've listed some articles twice. Red and white beans are listed separately, and they used to be listed as one. Flour is down once as "flour," and once as "family flour." Instead of lard, we take vegetable shortening; instead of bacon, we take nothing If they keep making these cuts

it means a fight. -Associated Charities Customer.

28 ORGANIZATIONS IN COLORADO FIGHT FOR BRIGHTON BOYS

To Appeal Case of Three Workers Framed To Hang

DENVER, Colo., June 16 .-- At the first meeting of the "State Conference to save the Brighton Boys.' held here June 11th, 28 organizations responded. Delegates from Spanish American organizations clubs, churches, political parties and unemployed groups reported their organizations would wholeheartedly support the campaign to win a new trial for the working class boys framed to die on the gallows.

Roy Vigil, Candelario Montoya, and Joe Saiz, of Spanish-American descent and all under 20 years of age, were convicted on false evidence of murdering a neighboring farmer Sept. 10, 1932. A judy inflamed with race prejudice, which is fully as strong here against Spanish workers as it is against Negroes in Southern states, brought in a verdict of "first degree murder."

The State Conference urges all workers organizations to send resolutions demanding a new trial to Governor C. Johnson, of Colorado and to the Colorado Supreme Court. A statement issued by the Conference points out, that the fact of the three boys being of Spanish descent was used to create feeling against them both within and outside the court room; that the alleged confession statements of the three boys were secured by coercive methods, the signature of one boy being obtained at the point of a gun and the other boys were told they were signing a routine state-

ONLY ONE MONTH LEFT TO AUG. 1

August first will mark 19 years since the great world war was deel red. The miseries it brought to hundreds of millions are s'ill tresh in the minds of most people. That it was a war in the interest of the bankers and industrial barons is now clear to any thinking person.

That is why on that day the working class must show greater determination than ever to prevent another world slaughter. Only by arousing the widest masses of the workers and poor farmers, as well as honest intellectuals and middle class people can we make it impossible for the imperialists to risk a war.

This mass struggle must be concretely directed against the war preparations going on now. In the first place for the defense of our fatherland, the Soviet Union, as the imperialist guns are being trained against it.

We on the West Coast find ourselves closest to the theatre of the next war. The entire U.S. Navy is stationed here. The dirigible Macon is soon to be added at Sunnyvale. \$288,000,000 has been allotted for the extension of navy armaments, and the building of war ships is to begin immediately.

Roosevelt is acting fast to put across his war program. But what about the workers?

Only one month left to August 1. One month in which to exert every ounce of energy for a huge demonstration. Arrangements in some parts have already been started, but most cities are slow.

August first is the biggest task before us for the coming month! Get started!

STRUGGLE OF THE CANNERY WORKERS

Conditions of working women in canneries of California, Oregon and Washington are among the worst in sweatshops anywhere. In Sacramento more than two thousand men, women and children have been putting in eight to twelve hours a day on asparagus for less than 20c an hour. Twenty cents, for an eight-hour day, six-hour week, would be only \$9.60. But few make that much. Instances are common throughout the state where women, forced into the canneries by the charities under the threat of having their relief cut off, make less than \$1 for a ten to twelve-hour day.

The California State Minimum Wage Law for women is \$16 a week. But last Saturday in Portland, Ore., representatives of the Industrial Welfare Commissions of Washington, California and Oregon met and decided on a new minimum of $27\frac{1}{2}$ c an hour—cutting the wage to \$13.20 a week! An eight-hour day was recommended - but provisions were made for staggering eight hours work out of each of two six-hour shifts. And if this weren't enough, it was further agreed that the law need not be enforced for more than two-thirds of the workers employed!

Even these fakers make no pretense that the law they are supposed to enforce is kept. They announce this wage cut as a 5c an hour raise in pay.

In California, Gov. Rolph refuses to hear anything about these sweatshop conditions. The State Labor Commission refuses to see what is going on; in fact, it is reported to be working in collusion with the canneries by phoning back names of women who complain, so they will be fired. And alongside of these, the A. F. of L. fakers, through Paul Scharrenberg, refuse to "speak evil." Says a section boss' headquarters—not Scharrenberg, in the "Labor Clarion," two weeks ago: "If the law can not be enforced, then let us take it off the just the same.

And the "San Francisco News," "liberal" Scripps-Howard paper, praises the cannery operators, claims that for some hot coffee and maybe they are eager to pay the required wage, but are helpless because a few small canneries won't abide by the law!

Throughout the struggles of the cannery and agricul- here for? Think I'm running a tural workers the A. F. of L. has fought on the side of the hotel? Get the next train and hit bosses against them. A SHORT STORY

HUNGER

We had pounded and jerked over We stumble back onto the tracks | makes us stay out late on the job Twenty-fours of cold, riding in a rocking box car.

Men had gotten on and off at every stop. Sometimes we were almost alone and sometimes our car was full of men. We had all seen too much to believe that things could ever "pick up" enough to do any lasting good. We knew that even if the mills in the lumber country did open again, the speedup system would keep us from getting enough wages to make what they call good times. My partner, Mac, said, "Hell, if lots of work and wages makes good times, what made the breakdown? Didn't a lot of us work then?"

The train jerked a couple of times and stopped. We were too damned tired to stick with it any longer. This was only a siding and much chance to eat-but we got off

To fulfill their purpose Gregory and Hoover who was directing operations from Paris contracted two Social Democratic rats called Agoseries of articles in April, May and ston and Haubricht whom the young Communist Party under Kun's leadership had been foolish enough to allow to take part in Hoover and Gregory, with the help the government. They entered into a conspiracy as described by Gregory thus:

"Assumption of dictatorship in which complete powers of government were to be vested. Names to be discussed: Haubricht, Agoston, Garami and Boehm.

"It must be kept clearly in mind that aside from Boehm, who was a mere tool, the real conspiracy we had set afoot was one dominated by the LA-BOR - DEMOCRATIC INTER-ESTS in Hungary.

"Without this strong and active body of men, and without the leadership of the three named, Boehm or any other military or monarchistic conspirator would have been as helpless as a school boy."

An agreement was then concluded between the "Soviet Government" (actually the counter-revolutionary Social-Democratic traitors) and the Hoover food relief administration to send carloads of food into Hungary in sealed cars for a million dollars cash.
