# United Farmers League Calls State Wide Farm Conference for Nov. 4-5

Delegates At Provisional Meeting Invite All Farm Groups For United Action

MERCED, Aug. 1.—The provisional conference called by the United Farmers League, held here on July 30, decided to call a State wide Farm Conference to take place place in Merced on November 4-5 to organize the farmers around the following demands.

- 1. Immediate relief to all impover ished farmers.
- 2. Abolition of taxes for all destitute farmers, and a lowering of taxes for all other working far-

PORTLAND, Ore., Aug. 2.- More than 4000 workers assembled at the Plaza Park last night to demonstrate against imperialist war in strate against imperialist war in the face of the greatest mobilization of police against the workers yet seen in Portland. The city council twice refused a permit for an anti-war parade.

The capitalist press conducted a vicious campaign against the Communist Party to try and stir up a hysteria against parading and to justify an attack against the workers. About 500 workers voted to parade in spite of the police mobilization, while nearly all the rest, although sympathetic, were not ready to join a parade. It was thereupon decided not to parade and give the police a chance to launch an attack on the militant workers alone, and possibly cause a split in the ranks of the 4000.

More than 100 uniformed police armed with special riot clubs (the first time these have appeared here) with dozens of plain clothes men and a car load of tear gas, in addition to reserves of the harbor patrol and other forces, showed the "peace" attitude of the local government. The chief of police himself and the city prosecutor were present to direct the forces of "law

Salem Cannery and Agricultural Local Takes Initiative

SALEM, Oregon-Realizing the need for a powerful Cannery and Agricultural Workers Union to combat deplorable conditions, long hours and low wages prevailing in the state of Oregon, the Salem Cannery and Agricultural Workers Union has issued a call for a statewide conference for Sunday, Aug. 13, at 2 p. m. ## Build a Fighting Union!

A strike wave is sweeping through the northwest lumber industry. In Klamath Falls two thousand were out, in Grays Harbor two thousand more are conducting the greatest struggle in the industry

Camps and mills throughout Oregon, Washington and Idaho are watching intently the progress of this strike movement, and are also talking of organization and the leadership necessary for these struggles.

There is no doubt that one of the most important factors to develop this strike sentiment is the activity of the Communist Party and the Trade Union Unity League Unions. Workers were told that a strike is the most effective weapon in their hands. But the most serious weakness is that the building of a strong organization such as will organize the fight for higher wages and shorter hours was neglected.

But it is not too late now! In fact right now we have the best opportunity for building a powerful union-the National Lumber Workers Union-in all camps and mills.

The leaders of the A. F. of L., seeing their opportunity, are utilizing the NRA for getting control of the lumber workers, whom heretofore they had completely ignored and left to the companycontrolled 4Ls. They succeeded in organizing hundreds, and incidentally collecting initiation fees ranging from \$2 up. However, they did not organize the workers so as to better their conditions but to betray them to the bosses.

The moment the rank and file called for a strike the leaders put thumbs down. "We do not need a strike," they said. "The government will see that we get our demands." The workers were not satisfied with this. The bosses were piling up stocks, and the workers saw themselves being left out in the cold, layed off, in face of increasing prices. They overwhelmingly voted for a strike despite the leadership. Then the A. F. of L. fakers showed their true colors. They secretly negotiated with the bosses, then started to mobilize the workers for returning to work, announcing the strike was over. They collaborated with the bosses. The workers not only repudiated the fakers but came out in still greater numbers.

The militant sentiment of the workers in the strikes is the best oof that thousands are seeing through the fake recovery propa used as a means of forcing them back to slavery conditions. In fact, at this very moment, the lumber barons are in Washington preparing a code that will make the 4L company-controlled unions the "representatives" of the workers, and put through a 221/2c-421/2c an hour wage.

The duty of every militant worker, every Communist, is to get into the thick of the struggles and spread them to other camps and mills. Only a greater and more militant struggle is the only language the code makers will understand.

The Communist Party is faced with the great task of organizing fighting unions in the two major industries in Oregon-agriculture and lumber. This can only be accomplished through a struggle similar to such as is now taking place in Klamath Falls and Grays

BULLETIN

KLAMATH FALLS, Ora., Aug. 5 -After two weeks of one of the est lumber struggles in years, the 2000 strikers went back to work yesterday, betrayed by the A. F. of L. officials. The vote was 311 to return to 252 against, and many of those that voted to return did so only because they were under the illusion that they would get something from the NRA.

The officials on a previous occasion even issued a special issue of the local paper announcing that the strike is called off. But the workers came out in even greater numbers. However, the fakers were not thrown out of the strike ranks, but given an opportunity to plan their betrayal and convince many to return to work and await the lumber code. The close vote nevertheless shows the resentment in the ranks.

From all indications the code will maintain wages and hours as they are at present. The speed-up will be increased, and inevitably a struggle will develop again. In this state the minimum wage for women is 27c an hour. The bosses are getting around this by means of piece work. In the past few days they have changed their methods and are laying off some of the women and hiring boys in their place at 15c and 20c an hour. > In October, 1932, a white S. P. steward was found murdered in a dining car. Seven men, including Jordan, were arrested, and Jordan, in line with the ruling-class policy of national oppression and lynch law, was selected as the victim. After over 20 hours of the most savage torture, which has left Jordan permanently scarred and crippled, he was forced to sign seven "confessions," no two alike. These "confessions" and circumstantial evidence convicted him before a white jury and the death sentence was imposed by a judge who has been known to openly mention his hatred of Negroes. The National Association for the Advancement of Colored People, after making a pretense of aiding Jordan and collecting funds for his defense, withdrew from the case and betrayed him to the hangmen, hiding behind a smoke screen of the most vicious slander against Jordan and against the I. ## DEFY ROOSEVELT'S STRIKEBREAKING ORDER

Gen. Hugh Johnson, chief NRA administrator, declared that the President's appointment of an arbitration board "prevented" the strike of the Pennsylvania miners from spreading to at least 200,000 more. Roosevelt openly admitted that the strikes now spreading throughout the country hit at the very foundation of his recovery plan.

These admissions coming from the heads of the boss government prove that the Roosevelt program is not being received by the workers as a remedy to the present situation, but they fight against it. The workers do not rely on the code negotiations in Washington, but on the strike as the most effective weapon.

Just as the miners in Pennsylvania are learning that the NRA is used for strikebreaking purposes, so in the West. At Klamath Falls, A. F. of L. fakers told the lumber workers to go back to work pending the code. In Carbon County, Utah, the labor fakers tell the miners on strike the same story. When the Mexican berry workers were on strike, in Southern California, a special Federal Government representative advised them to accept the conditions offered by the growers.

#### LABOR FAKERS "REPRESENT" LABOR

Who is on the arbitration committee? Of the seven, three are supposed to be representatives of labor. They are Green, John L. Lewis of the United Mine Workers, and Leo Wolman, now one of Roosevelt's NRA advisors. Roosevelt found them fit for the committee because they have proven themselves on numerous occasions the best scabherders, and willing tools in the hands of the corporations. It is they that came forward with the plan. They find themselves powerless to stop strikes, and want to make them illegal. They want the full weight of the Federal government to crush strikes. As every arbitration board did, this one will decide against the workers on all basic matters, but will perhaps throw a sop or two on some minor matter.

Johnson, speaking of this strikebreaking move, says: "It was a spontaneous offer on the part of these leaders of labor and industry on the advisory board," he said. "They met here together and brought the thing to me. I took it to the President and he gave it his endorsement."

The labor fakers are the government's chief advisors in the moves against the workers.

The recovery administrators state further, referring to the President's order:

"That it is a document on par with Samuel Gompers' memorable war-time demand to preserve the status quo in labor disputes."

Status quo means preserving the miserable conditions prevailing everywhere, while prices rise. It means disarming while the labor fakers co-operate with the Roosevelt floor, one of the leading lights administration to set low wage codes.

#### A "Blue Eagle" Job

SAN FRANCISCO, Aug. 6.-Highly enthused over the first job n seven months, a worker suddenly realized that the "Blue Eagle' vas a Blue Buzzard.

Promised a job at \$2.00 a day at the California Packing Corporation at Ignato he paid the Murray & Ready Employment Agency \$2.50. On closer investigation it was found that the car-fare was 80c each way or \$1.60 a day and the company held out 75c for meals, which amounted to a total of \$2.30 a day, unless the worker moved there. The amount of working time required was 11 hours, and if he staved at the job he had to furnish his own blankets and sleep out. The card from the Employment Agency stated the health conditions were O. K. and that the company complied to the labor laws. The job is not permanent, and if he should work 48 hours, or put in will be a general strike before the two full days he could not get the day was over. This occurred on \$2.50 back from Murray & Ready. At both places they have a "Blue Eagle" in the window with a state-
